

PRELIN GOVENDER

Chemical Engineering Graduate

Durban, Chatsworth (4092), Kwa-Zulu Natal | (+27)67 282 9524 | Prelingovender08@gmail.com

Summary

I am a chemical engineering graduate that has interests in engineering design, simulation and data analytics. I have practical experience in the operation and design of processing equipment while also having pursued certification in data analytics and cybersecurity. My goals are to continuously refine my skill set while gaining more knowledge and experience in a working environment associated with engineering and analytics.

Education

2017 – 2021 : Bachelor of Engineering Technology: Chemical Engineering

Durban University of Technology

Laboratory/process engineering equipment - Laboratory Course modules (2019 – 2021) Practical usage of several types of equipment eg. distillation columns, heat exchangers, evaporators, reactor towers.

Chemical Engineering Design - Design Course modules (2019- 2021) Producing designs of process engineering equipment such as heat exchanger, process pipelines, reactor columns and distillation columns.

2024: Chemical Operations Level 2

Scientec Education and Training

Modules: Standard Operating Procedures, Process Emergencies, Process Control, Instrumentation, Sampling Theory, Environmental Protection.

2025 - Current: Higher Certificate in Information Technology

Richfield Graduate Institute of Technology

Modules: E-commerce, Web Technology , Programming, System software

Online Certificate/Courses

- Google Data Analytics (Coursera.org)
- Google Cybersecurity (Coursera.org)

Work Experience

May 2024 – December 2024 : Chemical Operations Learner

Bidvest Tank Terminals

Primary responsibility is safe handling, storage, and transfer of various chemicals through overseeing loading and unloading of chemicals, operating specialized equipment such as pumps, valves, and monitoring systems, and ensuring compliance with safety protocols and environmental regulations.

Skills

- | | |
|---|----------------------------|
| ● Proficient with Microsoft Office | ● SQL/Spreadsheets |
| ● Proficiency with design & simulation software | ● R programming |
| ● Data analytics | ● Basic Python programming |

Languages: English (fluent); isiZulu (novice)
